DESIGN AND MANUFACTURING FOR THE HIGH VOLTAGE INDUSTRY

Trydor Manufacturing has experience in the High Voltage industry; you can trust our manufactured goods. Our products are constructed of high-quality materials and designed to meet the industry standard.

Since 1972, Trydor Manufacturing has been an industry leader in the material supply business, specializing in high-voltage applications. Our customer base includes electrical wholesalers, municipalities, the mining sector, oil and gas industries, telecommunication sector, pulp and paper and lumber industries worldwide.

We design and manufacture various assemblies and components. Our capabilities include machining, bending, stamping, drilling, punching, finishing, galvanizing, silver plating and final assembly.

Trydor is a proud member of the Canadian Electricity Association (CEA) and is fully approved by WorkSafeBC.
