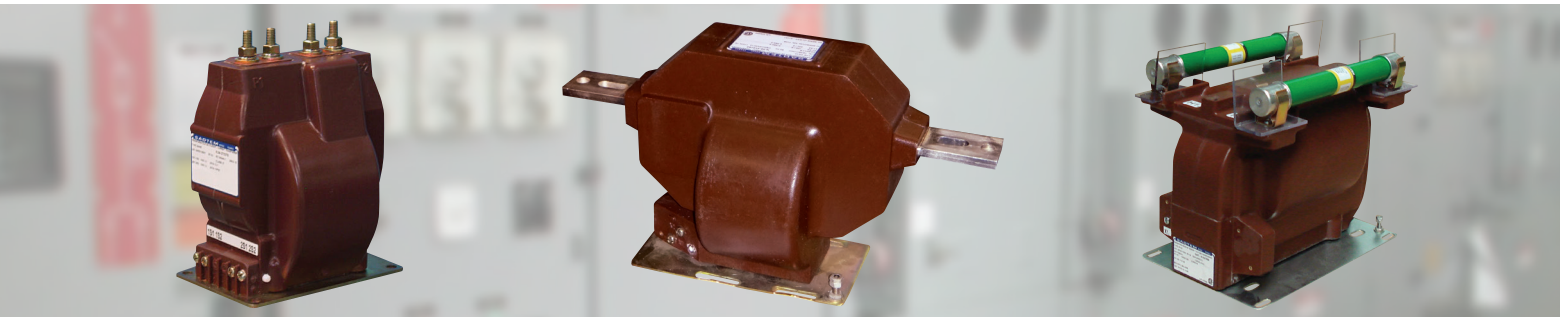
We Make Lasting Connections



SADTEM

Indoor Instrument Transformers

Rexel Utility distributes a complete range of SADTEM indoor current and voltage transformers. These transformers provide isolation from the primary circuit and transform current and voltage to measurable levels for both metering and protection applications in the 5kV to 35kV insulation range.

CT's

- Multiple ratios available
- 0.15S high accuracy
- Donut/Window and Bar types
- CSA and Measurement Canada approved

VT's

- Dual primaries possible
- Tapped secondaries or multiple cores
- Fusing available
- CSA and Measurement Canada approved

The SADTEM Advantage:

- 80+ years in manufacturing expertise
- Casting process and resin allows for reduced sizes, reduced weights and optimum dielectric strengths
- Pioneers in the use of cycloaliphatic resin insulators providing excellent creepage distances and resistance to surface tracking and flashover
- Easy to mount in any position either on their own or in clusters on pole mounted bracket assemblies or in padmount enclosures
- Dry type design - compact, rugged and require no maintenance
- Built to CSA/IEEE standards
