SADTEM

Outdoor Instrument Transformers

Rexel Utility distributes a complete range of SADTEM outdoor current and voltage transformers as well as CT/VT combined units. These transformers are built to rugged specifications for a varied range of climatic and atmospheric conditions and are available in the 5kV to 72kV insulation range.

CT's

- Multiple ratios available
- 0.15S high accuracy
- Measurement Canada approved

VT's

- Dual primaries possible
- Tapped secondaries or multiple cores
- Measurement Canada approved

COMBINED CT/VT's

- Reduced footprint
- Modular with the KYE24 design
- High accuracy available
- Multiple ratios available
- Measurement Canada approved

The SADTEM Advantage:

- 80+ years in manufacturing expertise
- Casting process and resin allows for reduced sizes, reduced weights and optimum dielectric strengths
- Pioneers in the use of cycloaliphatic resin insulators providing excellent creepage distances and resistance to surface tracking and flashover
- Easy to mount in any position either on their own or in clusters on pole mounted bracket assemblies or in padmount enclosures
- Dry type design - compact, rugged and require no maintenance
- Built to CSA/IEEE standards
